Objectives

Data Analyst transitioning into Data Science, skilled in Python, SQL, and Machine Learning. Experienced in building predictive models and end-to-end AI pipelines, with a strong foundation in statistics and data-driven decision-making.

Education

Benha University – Faculty of Commerce (English Section)
Bachelor's Degree in Statistics (Expected 2026) GPA: 3.98

Professional Experience

Arab African International Bank (AAIB) – Intern (2025):

- Delivered customer support and resolved inquiries while building strong communication and problem-solving skills and Contributed to banking operations through transaction processing.

Ison Experiences – Call Center (2023–2024):

- Managed customer inquiries and provided solutions under pressure, strengthening communication and problem-solving skills.

Projects

Mindscope – Behavioral & Predictive Platform (2026-Ongoing):

- Engineered an end-to-end interactive web platform using Machine Learning pipelines (**Scikit-Learn**, **XGBoost**) to analyze user data.
- Deployed a context-aware AI assistant using **Google Gemini API**, utilizing custom prompt engineering to provide personalized psychological and health recommendations.

Sallah Call Center Performance Dashboard (2026):

- Built an interactive Power BI dashboard to monitor Call Center KPIs, including Service Level, Handling Ratio, Abandonment Rate, and Average Speed of Answer (ASA). Implemented Row-Level Security (RLS), Dark/Light Mode, interactive filters, and custom animated UI for enhanced user experience.

Certifications & Training

- **Data Analytics:** IBM Data Analyst Professional Certificate.
- **Machine Learning & AI:** Machine Learning with Python (Coursera); AI Mindset (Dotpy).
- **Data Skills:** Exploratory Data Analysis in Python; SQL Tracks (Intro, Intermediate, Joins, Manipulation, PostgreSQL Summary Stats & Window Functions) (DataCamp).

(Additional certifications listed on LinkedIn)

Skills

Technical Skills & Tools:

- **Machine Learning & AI:** Scikit-Learn, XGBoost, Predictive Modeling, Hyperparameter Tuning.
- **Data Visualization & BI:** Power BI, Streamlit, Plotly.
- **Data Analysis & Automation:** Advanced Excel (Power Query, PivotTables , DAX), Python (Pandas, NumPy).
- **Databases & ETL:** SQL (PostgreSQL), Data Cleaning & Modeling, Feature Engineering.
- **Statistics:** Descriptive & Inferential Statistics, Regression Analysis, Hypothesis Testing.

Analytical & Soft Skills:

- Data-Driven Decision Making.
- Data Storytelling & Visualization.
- Workflow Optimization.
- Collaboration & Communication.
- Time Management & Task Prioritization.
